MAKE A WATER BLASTER!

Don't go with the flow - make your own water blaster and find out who's the fastest sploosher!

YOU'LL NEED

- Two empty plastic bottles with lids
- Drawing pin
- String
- Two plastic/paper cups

WHAT TO DO

1

Ask an adult to make a hole in the lids of the empty bottles using the drawing pin. Fill them both with water.

2

Next, ask them to make a hole in the bottom of two plastic or paper cups.

3

Find two places outside you can tie the string between. Make sure they are a little bit apart. Cut a length of string and tie up one end.

4

Push the other end through the hole in the cup then tie this end up too so that the cup is now threaded onto the string.

5

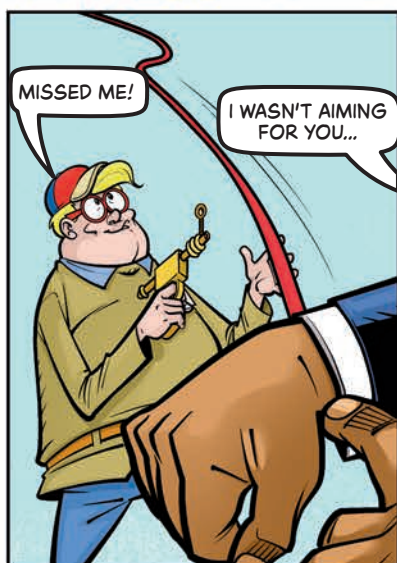

Do the same with the other length of string and cup and you're ready for battle! See who will be first to blast their cup from one end of the string to the other.

5 Oh no! The ball hits a wandering hedgehog! Has it burst the ball? It's still moving and bounces one square to the left.

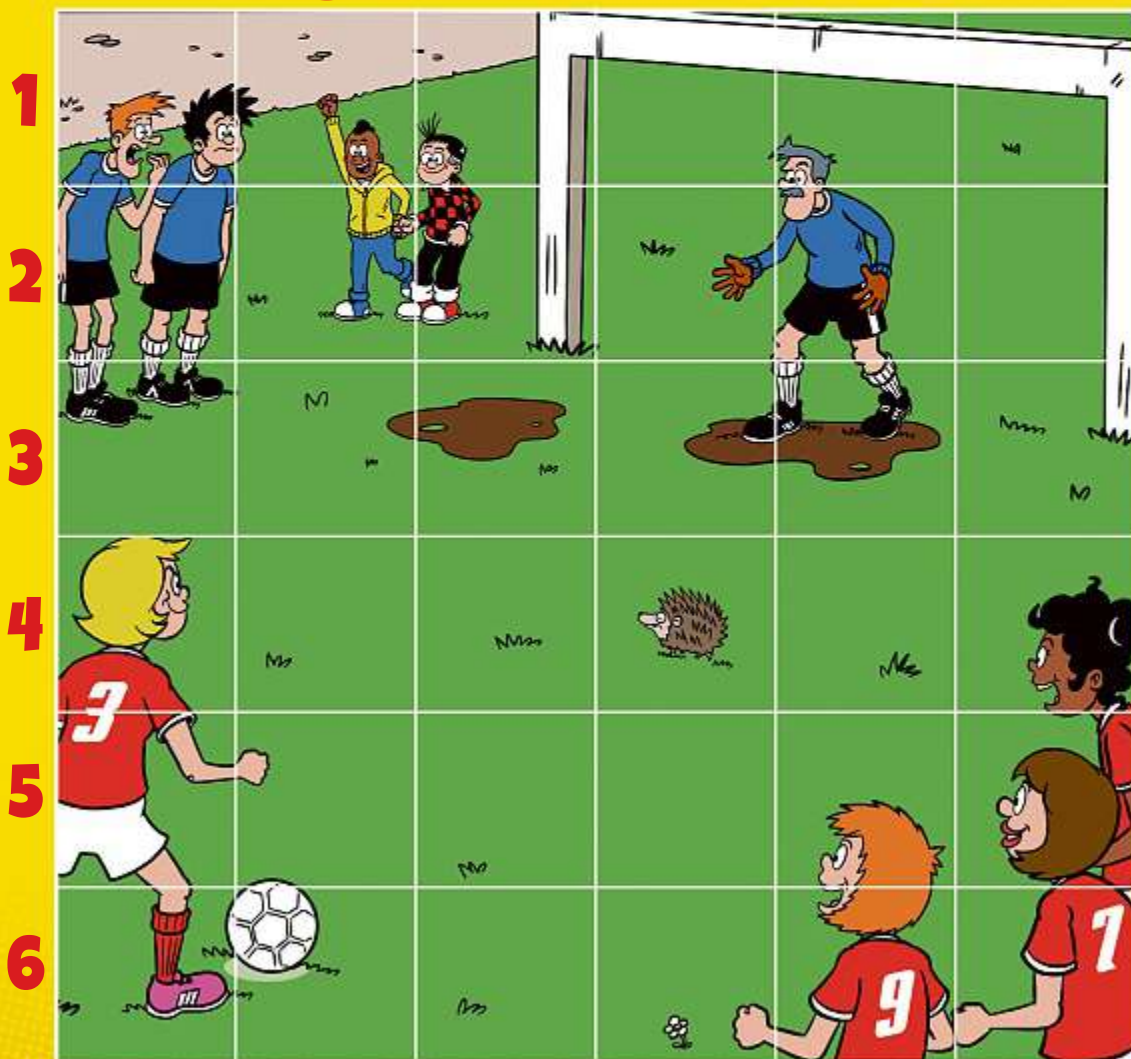

6 The ball spins uncontrollably up one square!

7 The ball has hit a puddle, splattering the goalie in the face with mud! He can't see!

8 The ball has bounced up two squares, hitting the corner of the goalpost!

9 Mr Dawson is desperately trying to clear the mud from his eyes as the ball rebounds over his head three squares to the right!
